

1 NAME OF THE PRODUCT

Capasal Herbal Shampoo

2 PRODUCT TYPE

A natural, conditioning shampoo for the treatment of dandruff and to soothe dry itchy scalps.

3 FORMULATION

Shampoo

(For Ingredients see Section 6)

4 PRODUCT PARTICULARS

4.1 Product Claims

Capasal Herbal Shampoo is a natural, conditioning shampoo which effectively treats dandruff and soothes dry, itchy scalps. This natural treatment helps clear dandruff leaving the scalp feeling cleansed and refreshed, whilst giving body to the hair.

4.2 Directions for Use

Use as a shampoo, daily if necessary. Wet hair thoroughly. Massage a small amount (5-10ml) of the shampoo into the scalp, ideally leaving on for a few minutes before washing out. Repeat, producing a rich lather. Rinse hair well, and dry.

4.3 Contra-indications

Not to be used in cases of hypersensitivity to any of the ingredients, or if irritation occurs.

4.4 Special Warnings and Precautions for Use

For external use only.

Avoid contact with the eyes.

4.5 Interaction with other Products and other forms of Interaction

None known

4.6 Pregnancy and Lactation

There is no contraindication to use during pregnancy or breast feeding, as the ingredients have been in widespread use in cosmetics for many years, without significant adverse reports. However, safety trials have not been conducted.

4.7 Effects on Ability to Drive and Use Machines

None known

4.8 Undesirable Effects

Contact with the eyes should be avoided as irritation may occur. If contact does occur, the eyes should be flushed thoroughly with warm water. If irritation persists, medical advice should be sought.

Skin irritation/hypersensitivity can occur in sensitive individuals. If this occurs, discontinue use and if irritation persists seek medical advice.

4.9 Overdose/abuse/misuse

Oral ingestion of significant quantities presents potential safety issues, mainly owing to the risk of aspiration. However, accidental ingestion of such quantities is unlikely because of the product's unpleasant taste.

5 MODE OF ACTION

TEA lauryl sulfate is a mild detergent included for its cleansing action to remove grease and debris, particularly scalar debris, from the hair and scalp.

Two naturally based conditioners, cocamidopropyl betaine and lauryldiamonium hydroxypropyl hydrolyzed collagen, soften the hair and give it body.

Melaleuca alternifolia (tea tree oil) and salicylic acid have well recognised properties that are utilised to effectively treat dandruff. The antimicrobial properties of tea tree oil reduce the microbial load on the scalp and salicylic acid helps to lift scalar debris.

Cocos nucifera (coconut oil) is a natural moisturiser which soothes dry itchy scalps and conditions the hair.

The other ingredients serve to optimise the product's physical and cosmetic acceptability.

6 QUALITY PARTICULARS

6.1 Ingredients

TEA-lauryl sulfate
Aqua
Lauramide DEA
Laurdimonium hydroxypropyl hydrolyzed collagen
Cocamidopropyl betaine
Melaleuca alternifolia (2.0%)
Ammonium sulfate
Cocos nucifera
Salicylic acid
Phenoxyethanol
Potassium sorbate
Sodium chloride
Limonene
Methylchloroisothiazolinone
Methylisothiazolinone
CI 42090

6.2 Incompatibilities

Not applicable

6.3 Shelf Life

36 months

6.4 Special Precautions for Storage

Store at room temperature

6.5 Nature and Contents of Container

Pale green plastic bottle with a spigotted flip top dispensing cap containing 100 ml

6.6 Instructions for Use, Handling and Disposal

No special requirements

7 MANUFACTURER/HOLDER OF PRODUCT INFORMATION FILE
